Signature of Applicant \_\_\_\_\_ Date \_\_\_\_\_

<b>Definitions</b>
--------------------

**"Agricultural Operation"** means an agricultural, horticultural or silvicultural operation that is conducted in order to produce agricultural products on a commercial basis, and includes:

- a) the production of crops, including grains, oil seeds, hay and forages, and horticultural crops, including vegetables, fruit, mushrooms, sod, trees, shrubs and greenhouse crops;
- b) the use of land for livestock operations and grazing;
- c) the production of eggs, milk and honey;
- d) the raising of game animals, fur-bearing animals, game birds, bees and fish;
- e) the processing necessary to prepare an agricultural product for distribution from the farm gate;
- f) the operation of agricultural machinery and equipment, including the tillage of land and the application of fertilizers, manure, soil amendments and pesticides, whether by ground or aerial application;
- g) the storage, use or disposal of organic wastes for agricultural purposes.

**"Livestock"** means animals or poultry not kept exclusively as pets, excluding bees

**"Confined Livestock Area; "confined livestock area"** means an outdoor, non-grazing area where livestock are confined by fences or other structures, and includes a feedlot, paddock, corral, exercise yard, holding area and hoop structure

**"Farm Building/Structure"** means a building or structure, other than a dwelling, which does not contain a residential occupancy, situated on a farm and used or to be used in the actual farming operation and which is:

- (a) associated with and located on land devoted to the practice of farming and considered to be an "Agricultural Operation" and
- (b) used essentially for the housing of equipment or livestock, or the production, storage or processing of agricultural and horticultural produce or feeds, such as barns, produce storage buildings, milking centres, piggeries, poultry houses, grain bins, silos, machinery sheds, farm workshops, feed preparation centres, manure storages, greenhouses and garages not attached to a farm residence and
- (c) has a Low Human Occupancy (as applying to farm buildings) means an occupancy having an occupant load of not more than 1 person per 40 square meters during normal use)

**"Field Storage"** means solid livestock manure that is stored in open air other than in a manure storage facility.

**"Earthen storage facility"** means a structure built primarily from soil, constructed by excavating or forming dikes, and used to retain livestock manure

**"Feedlot"** means a fenced area where livestock are confined solely for the purpose of growing or finishing, and are sustained by means other than grazing

**"Manure storage facility"** means a structure, earthen storage facility, molehill, tank or other facility for storing or treating manure or where it is stored or treated, and includes any permanent equipment or structures in or by which manure is moved to or from the storage facility, but does not include:

- (a) a field storage site,
- (b) a vehicle or other mobile equipment used to transport or dispose of manure,
- (c) a gutter or pit used to contain liquid or semi-solid manure for less than 30 days for the purpose of moving the manure to a storage facility,
- (d) a collection basin, or
- (e) a temporary composting site for manure
